

Leading food manufacturers and distributors are deploying ERP software

Stay on the top with the intelligent SAGE X3 ERP software...

Industry

The food industry performs quality checks, and food standards and starts processing

Agriculture

Food is sent by horticulture livestock and dairy farms

Distributors

Food comes to the consumers via distributors. Customers then make a choice & compare products in the supermarket

Prominent CHALLENGES for Food Manufacturers & Distributors?

- Minimal investment in IoT devices for efficient product traceability
- Managing product recall and Establishing your presence in e-Commerce portals
- Enhancing health awareness
- Implementing industry-standard supply chain practices
- Lack of transparency in supply chain operations
- Supply chain distribution optimization

Why ERP is a survival tool kit for you?

- Streamlines compliance for fast growth
- Proactively monitor supply chain
- Enhances inventory utilization
- Forecasts demand & supply precisely
- Collects real-time data through advanced Data Analytics
- Decreases food spoilage & improves quality management throughout the food supply chain

How customer behaviour is evolving in the food and beverage manufacturing sector?
